To whom this may concern:

I believe it would be in the best interests of our country to quietly and quickly settle the case with Microsoft. I say this not because I know anyone who works for Microsoft, but because this dubious case against Microsoft has drug on for way too long. The persons this benefits most are the lawyers who love this all the way to the bank. This situation is counterproductive to the ordinary citizens of the US who stand to lose the most in the long run. The government should not be getting involved in free enterprise.

Sincerely,
Barbara Hastings
